 Letter received voicing concerns over pipeline alignment in Lila Keiser Park

FACILITY

ECLAMATION

### Why additional environmental analysis?

WATER

FACILITY

MORRO BAY

# Why changes to the Project?

- Protect cultural resources
- Improve operation of the City's wastewater system
- Reduce costs
- Allow flexibility during construction

### What changes have been made?

CITY OF

- Southern pipeline alignment changes near the WRF site
- Addition of a second lift station
- Addition of multiple construction laydown areas
- Modifications to the jointly-owned outfall

## FEIR project description

WATER FACILITY OF MORRO BAY RECLAMATION PROJECT

### Current project

WATER FACILITY OF MORRO BAY RECLAMATION PROJECT

### Why were these changes made?

Component	Justification
Northern pipeline alignment changes	<ul><li>Protect cultural resources</li><li>Construction flexibility</li><li>Cost savings</li></ul>
Southern pipeline alignment changes	<ul> <li>Cost savings</li> </ul>
Second lift station	<ul><li>Cost savings</li><li>Improved operations</li></ul>
Multiple construction laydown areas	Construction flexibility
Outfall rehabilitation	<ul> <li>Improved operations</li> </ul>

### Environmental analysis components

CITY OF

FACILITY

MORRO BAY

- Agriculture and Forestry Resources
- Air Quality
- Biological Resources
- Cultural Resources
- Geology, Soils and Seismicity
- Greenhouse Gas and Energy
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Noise and Vibration
- Traffic and Transportation

#### Findings

As discussed above in this Addendum, the proposed modifications would not change the impact conclusions of the Final EIR. The proposed modifications would still meet the same project objectives determined in the Final EIR. As analyzed above, no new potentially significant impacts would occur, and the proposed modifications would not increase the severity of previously identified impacts analyzed in the Final EIR. The proposed modifications to the previously approved project do not meet any of the conditions that would require the preparation of a subsequent EIR or negative declaration set forth in Section 15162 of the *CEQA Guidelines* or any of the conditions set forth in Section 15163 of the *CEQA Guidelines*.

# Why was the addendum circulated?

- Requirement for projects that could receive SRF funding
  - Minimum 2 weeks
  - State Clearinghouse
  - County clerk
