CONSTRUCTION SCHEDULED ON KENNEDY WAY BETWEEN QUINTANA ROAD AND PINEY WAY

Construction is scheduled on Kennedy Way from Tuesday, Aug. 30, to Friday, Sept. 2, as part of the City of Morro Bay Water Reclamation Facility (WRF) Pipelines.

What To Expect: Construction work will be focused on the support infrastructure associated with the WRF Pipelines, including fiber optic work. Construction will occur on Kennedy Way between Quintana Road and Piney Way. Traffic control will be in place for the safety of construction crews and the traveling public. Please expect alternating one-way traffic through the work area and plan extra time when traveling on Kennedy Way. All businesses in the area will remain open and accessible during construction. Please follow all construction crew directions and posted signage.

When: Construction on Kennedy Way is scheduled from 7 a.m. to 5:30 p.m. from Tuesday, Aug. 30, to Friday, Sept. 2, 2022.

Why: The City of Morro Bay is investing in the construction of the WRF Program that will protect our environment, and provide a safe, clean and reliable water supply for our community, both current and future generations. The WRF Program involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment, and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer.

The City is committed to clear communication and providing up-to-date information about construction activities. Please contact wrfinfo@morrobayca.gov or **877-MORROBAYH2O** with questions about the City's WRF Program, and a team member will get back to you within one business day.
