Morro Bay, CA 93442

CONSTRUCTION NOTICE: Quintana Road and Las Tunas Street

Feb. 18, 2021

On Tuesday, Feb. 23, 2021, a temporary sewer pipeline is tentatively scheduled to be installed across Quintana Road at Las Tunas Street as part of the City of Morro Bay Water Reclamation Facility (WRF) Pipelines and Lift Stations project.

What To Expect: This work is associated with the WRF Pipelines, which will be constructed in segments on Quintana Road. During construction of the sewer bypass pipeline, a single lane of traffic will be maintained by flaggers. Please follow all posted signage and crew member directions near the work zone and expect delays in the area. All businesses will remain open and accessible.

Due to the sensitivity of the active, above-ground, temporary sewer pipeline, no street parking on Quintana Road will be allowed from Las Tunas Street to La Loma. Please park on alternate streets and abide by posted No Parking signs to avoid vehicles being towed and/or ticketed.

When: Sewer bypass pipeline construction is tentatively scheduled on Tuesday, Feb. 23, 2021, from 7 a.m. to 3:30 p.m. The rest of the pipeline construction on Quintana Road from Morro Bay Boulevard to La Loma is scheduled for spring 2021. The overall project schedule calls for the majority of construction activities to be completed by December 2021.

Why: The City of Morro Bay is investing in the construction of the WRF Program that will protect our environment, and provide a safe, clean and reliable water supply for our community, both current and future generations. The WRF Program involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment, and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer and will be capable of providing up to 80 percent of the City's water needs in the future.

Safety Notice: City personnel and construction crews will adhere to all health and safety protocols in place for personal protective equipment and physical distancing associated with COVID-19 precautions.

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on morrobaywrf.com. Please contact wrfinfo@morrobayca.gov or **877-MORROBAYH2O** with questions about the City's WRF Program, and a team member will get back to you within one business day.
