PAVING WORK SCHEDULED FOR MORRO BAY WATER RECLAMATION FACILITY PIPELINES

Jan. 26, 2023

Weather permitting, paving is scheduled to occur on Quintana Road as part of the City of Morro Bay Water Reclamation Facility (WRF) Pipelines.

What To Expect: Paving and striping work is scheduled to occur in the following areas on Quintana Road:

La Loma to South Bay Boulevard: Scheduled on Friday, Jan. 27, with local, southbound access only from La Loma. Through traffic and northbound traffic will be detoured via Highway 1.

Las Tunas to La Loma: Scheduled from Monday, Jan. 30, to Wednesday, Feb. 1, with southbound traffic maintained by flaggers from Morro Bay Boulevard. Northbound traffic will be detoured via Las Tunas and Alessandro Street.

Please follow all posted signage and construction crew member directions, and please plan extra time when traveling on Quintana Road. Street parking will be temporarily closed on Quintana Road during paving, and traffic control will be set up and moved with the paving equipment.

When: Paving and striping work is currently scheduled for Quintana Road from 7 a.m. to 5:30 p.m. Additional paving activities will be scheduled in February 2023 on Quintana Road, Main Street and Atascadero Road.

Why: The City of Morro Bay's WRF Program includes replacement of the City's existing wastewater treatment plant with an advanced water purification facility that meets state regulations, protects the environment, and will be capable of contributing a drought buffer and a safe and reliable water source for Morro Bay's homes and businesses in the future.

The City is committed to clear communication and providing up-to-date information about construction activities. Please contact wrfinfo@morrobayca.gov or **877-MORROBAYH2O** with questions about the City's WRF Program, and a team member will get back to you within one business day.
