Water Reclamation Facility Pipelines Construction**

In early February 2021, construction is slated to begin on the City of Morro Bay's Water Reclamation Facility (WRF) Pipelines and Lift Stations. The WRF Program is the largest-ever City infrastructure program, and will meet state water and wastewater regulations, protect the environment and contribute a safe and reliable water source for Morro Bay's residents and businesses.

Contact Information:

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on morrobaywrf.com. Please contact wrfinfo@morrobayca.gov or 877-MORROBAYH2O with questions about the City's WRF Program, and a team member will get back to you within one business day. Thank you for your patience.

Documents and Resources

Project documents and meeting materials will be regularly posted on www.morrobaywrf.com under the Resource Library link.

About Our Water Morro Bay

The City of Morro Bay is investing in the construction of the WRF Program that will protect our environment, and provide a safe, clean and reliable water supply for our community, both current and future generations.

The WRF Program involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment, and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer and will be capable of providing up to 80 percent of the City's water needs in the future.

For more information about Our Water, please visit www.morrobaywrf.com or call 877-MORROBAYH2O (877-667-7622).
