City of Morro Bay Water Reclamation Facility Pipelines Construction Update

Construction is underway on the WRF Pipelines in the following locations from north to south.

- **Lift station site on Embarcadero Road:** No road closures will be in place but please expect additional construction-related traffic in the area near the lift station site.
- **Lift station site on Main Street:** No road closures will be in place but please expect additional construction-related traffic in the area near the lift station site.
- **UPDATE - Quintana Road near Kennedy Way:** Construction crews must relocate a water main through the intersection of Quintana Road and Kennedy Way, in addition to ongoing pipeline construction on Quintana Road. Quintana Road is closed between 420 Quintana Road and Kennedy Way until Friday, July 2, with posted detours on Main Street and Morro Bay Boulevard. Kennedy Way will be open to local business traffic, and through traffic will be detoured at Shasta Avenue. After the pipelines are installed on Quintana Road across Kennedy Way, Quintana Road will be open to southbound traffic only. All businesses will remain open and accessible. Please follow all posted signage and crew member directions near the work zone and expect delays in the area.
- **Las Tunas Street and Quintana Road:** Construction crews are currently preparing the pits (driving sheet piles, dewatering and excavation) on either side of the pipeline tunnel under the Morro Bay Boulevard roundabout. Tunneling activities will begin in July 2021.
- **UPDATE - Quintana Road between La Loma and South Bay Boulevard:** The road is closed for pipeline construction, and the posted detour is Highway 1. Beginning Tuesday, June 29, properties in this area will be accessed via La Loma.
- Underground utility investigation work is ongoing on Quintana Road through June 2021. Minor traffic control, like signage and cones, will be in place to direct traffic around the active work areas. No full road closures or detours will occur as part of this work.

Visit the [website](#) for current construction notices. Construction is scheduled on weekdays from 7 a.m. to 7 p.m.

Contact Information:

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on morrobaywrf.com. Please contact wrfinfo@morrobayca.gov or **877-MORROBAYH2O** with questions about the City's WRF Program, and a team member will get back to you within one business day. Thank you for your patience.

Documents and Resources

Project documents and meeting materials will be regularly posted on www.morrobaywrf.com under the Resource Library link.

About Our Water Morro Bay

The City of Morro Bay is investing in the construction of the WRF Program that will protect our environment, and provide a safe, clean and reliable water supply for our community, both current and future generations.

The WRF Program involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer and will be capable of providing up to 80 percent of the City's water needs in the future.

For more information about Our Water, please visit www.morrobaywrf.com or call 877-MORROBAYH2O (877-667-7622).
