

The City of Morro Bay
595 Harbor Street
Morro Bay, CA 93442

CONSTRUCTION NOTICE

Aug. 13, 2020

- What:** Pre-construction soil testing will be completed in your area to better understand the underground conditions before construction begins this fall on the City of Morro Bay Water Reclamation Facility (WRF) pipelines and pump stations (i.e., Conveyance Facilities). The underground testing will be completed using minimally invasive drilling (by machine and by hand) in select areas.
- Where:** The testing sites are located on the existing wastewater treatment plant site and within the Caltrans right-of-way on the pedestrian bike path and driveway leading to the former power plant. Minor traffic control, such as lane orange cones, will be used for the safety of the traveling public and for workers.
- When:** The work will begin on Aug. 18 and Aug. 19, 2020. Work hours are expected to be Monday to Friday from 7 a.m. to 5 p.m., but could extend into the weekend if required.
- Safety Notice:** Water infrastructure operations, maintenance and construction work remains essential, while a shelter-in-place order is confirmed in San Luis Obispo County to slow the spread of COVID-19. City personnel and construction crews will adhere to all health and safety protocols in place for personal protective equipment and physical distancing.
- Why:** The City of Morro Bay is investing in the construction of the Water Reclamation Facility Project that will protect our environment, and provide a safe, clean and reliable water supply for our community. The Water Reclamation Facility Project involves replacing the City's existing wastewater treatment plant with an advanced water purification facility that will meet state regulations, protect the environment, and contribute a safe and reliable water source for Morro Bay's homes and businesses. The project will create a drought buffer and will be capable of providing up to 80 percent of the City's water needs in the future.
- Contact:** The City is committed to ensuring you have up-to-date information about the project and construction activities. Please contact **877-MORROBAYH2O** or wrfinfo@morrobayca.gov with questions about this work or for more information about the City's WRF Project. Thank you for your patience as this work is completed.
